

Mark Bryan Gabriel

FULL STACK WEB DEVELOPER

mrkbryngbrl@gmail.com • 0975 647 2125 • Manila, Phillipines • itsmebryle.com

— SUMMARY

Motivated Web Developer dedicated to delivering clean, efficient, and user-focused solutions while continuously learning and evolving.

— EXPERIENCE

Nityo Infotech Services Philippines Inc. (BPIMS) — PHP SQL Developer

August 2024 – May 2026

- Built core PHP and SQL features to boost system performance and data reliability.
- Developed responsive microsites and internal tools using Python, JavaScript, and React.
- Managed and deployed cloud applications on AWS to ensure scalability and uptime.

Global Reciprocal Colleges — College IT Instructor

June 2024 – May 2026

- Taught BSIT coursework and delivered lectures to boost academic performance.
- Mentored students on hands-on software projects to build job-ready skills.
- Designed practical coursework and modules to improve student engagement and skills.

Alliedbankers Insurance Corporation — Jr. Software Programmer

June 2019 – April 2024

- Maintained core applications and built features to streamline daily operations.
- Built internal tools to automate repetitive tasks and reduce operational friction.
- Resolved technical issues to optimize application performance, uptime, and system health.

— PROJECTS

resum.io — HTML + CSS + JAVASCRIPT

<https://resum.io.itsmebryle.com/>

- An intuitive resume builder designed to pass Applicant Tracking Systems and get your application into human hands.

sense — HTML + CSS + JAVASCRIPT

[chrome extension store](#) → [sense - multi screen preview](#)

- A browser extension that lets front-end developers preview websites across mobile, tablet, laptop, and desktop screens—all at once.

3290 — HTML + CSS + Javascript

<https://3290.itsmebryle.com/>

- A 2D space shooter game: from which a player picks Mission Mode (a 50-level, 10-chapter campaign) or Survival Mode (an endless loop which is harder every pass).
